## Objective of this user guide

The objective of this user guide is to define and outline the steps to be followed when and accountable and reporting institution submit a Terrorist Financing Transaction Report (TFTR) to the Financial Intelligence Centre (the Centre) in terms of section 29(1)(a) or (c) of the FIC Act. Please note that the reporter must acquire login credentials on the Centre's registration and reporting platform in order to access the reporting platform. Please refer to Public Compliance Communication 05A and other relevant user guides on registration on the registration and reporting platform.

This user guide is applicable to a person who carries on a business or is in charge of or manages a business or is employed by a business and includes all accountable institutions listed in Schedule 1 to the FIC Act and all reporting institutions listed in Schedule 3 to the FIC Act.

## Access to the reporting platform

In order to submit TFTR to the Centre, the institution must access the portal provided by the Centre for this purpose on the Centre's website at [www.fic.gov.za](http://www.fic.gov.za).

## Legal Disclaimer

The Centre reserve the right to amend, modify or change the contents of this document.

## Definitions

The guideline must be read in conjunction with the FIC Act and the Regulations in relation to the definitions of terms. In this guideline, unless the context indicates otherwise:

**“AI/RI”** refers to an Accountable Institution (listed in Schedule 1 to the FIC Act) and Reporting Institution (listed in Schedule 3 to the FIC Act).

**“Business”** refers to organisation or entity (ies) and can be used interchangeably.

**“S43CO”** refers to person who is tasked to submit reports to the Centre.

**“FIC Act”** refers to the Financial Intelligence Centre Act, 2001 (Act No 38 of 2001), as amended.

**“Regulations”** refer to the Money Laundering and Terrorist Financing Control Regulations made in terms of section 77 of the FIC Act and promulgated in Government Notice 1595 of 20 December 2002 as amended.

**“goAML”** refers to the an integrated software solution implemented by the Centre as its preferred IT platform for registration, reporting, data collection, analysis, case management and secure communications required for the Centre’s daily operational functions and requirements.

**“TFTR”** refers to a terrorist financing transaction report submitted to the Centre in terms of Section 29(1)(a) or (c) of the FIC Act.

### Important information to remember when reporting on the Centre’s reporting platform:

- Reports can only be submitted to the Centre on the reporting platform after the business has acquired login credentials on the Centre’s registration and reporting platform. Please refer to Public Compliance Communication 05A and other relevant user guides on registration on the registration and reporting platform.
- All fields with an asterisk (\*) are mandatory and should be completed.
- The user needs to consider business rules applicable to the various reports when reporting and apply them along with the applicable regulations and sections of the FIC Act.
- All First Letters must be in Capital Letter;
- Words typed in ALL Capital Letter are not allowed.

## 1. Introduction

The Centre is implementing an integrated software solution as its preferred platform for registration, reporting, data collection, analysis, case management and secure communications required for the Centre's daily operational functions and requirements. The new registration and reporting platform is called goAML.

A person who carries on a business or is in charge of or manages a business or is employed by a business, including all accountable institutions listed in Schedule 1 to the FIC Act and all reporting institutions listed in Schedule 3 to the FIC Act have an obligation to submit terrorist financing transaction reports (TFTR) to the Centre in terms of section 29(1)(a) or (c) of the FIC Act and must utilise goAML for submitting TFTR to the Centre.

goAML is accessible by going to the Centre's website, [www.fic.gov.za](http://www.fic.gov.za), and selecting the reporting functionality.

## 2. goAML Web Icons

Icons	Description

	Refresh
	Remove the uploaded document
	Upload a document
	Save
	Save a report
	Submit a report
	Shows the number of attached documents
	Upload XML and web reports
	Access drafted and submitted reports
	View submitted reports
	Access mail messages on goAML
	Change password and user details
	Access statistics
	Logout of goAML

### 3. Terrorist Financing Transaction Report (TFTR) Baseline Scenario

The below process flow diagram demonstrates the end to end process of uploading a Terrorist Financing Transaction Report (TFTR). This diagram is given greater detail in the content below. Fields in the flow diagram are labelled A to H.

#### 3.1 Field Definitions

- Report type (A) – The type of report (i.e. TFTR)
- Reporting Person and Location (B)
  - Reporting Person - Linked to the logged in user details, this is the person uploading the TFTR;
  - Location - Describes the actual geographical area / branch where the transaction or series of transactions occurred. The address of the logged in user, is populated with selected report for capturing. The logged in user must edit or delete the address, if the populated address is not the actual location of where the transaction (series of transactions) and/or unusual/suspicious activity occurred.
- Indicators (C) – Refers to the relevant section of the FIC Act in terms of which the report is being made. An indicator in relation to TFTR means the type of report submission.
- Transactions (D) - “Transaction” means a transaction concluded between a client and an accountable institution in accordance with the type of business carried on by that institution.
- From Type / To Type (E) –This indicates from where the funds originated (from), and to where the funds were placed (to). Both fields are required to be completed.
- My client / Not my client and Conductor (F) – Denotes if the “from/to type” selected are the institutions client, or not the institutions client. i.e. The person/entity who paid the cash is not the client of the institution, and the person/entity receiving the cash is the client of the institution.
- Person / Entity / Account (G)
  - Person- this refers to a natural person.  
Note: If a person physically receives or pays cash, “person” is selected
  - Entity- this refers to a legal person. Note that there is a natural person that will always be linked to an entity (i.e. The signatory).  
Note: If an entity physically receives or pays cash, “entity” is selected.
  - Account- this refers to an account held with an accountable or reporting institution (e.g. Cheque account held with a bank).

Note: When cash is deposited or withdrawn to/from an account, then “account” will be selected.

- Mandatory Fields (H) – this refers to the fields that are compulsory to be completed. The information that is required is dependent on the fields selected in field G (i.e. Person / Entity / Account).
- Goods and services – this information is required to further describe the physical assets that are linked to the funds. This is only compulsory should this be a physical asset (ie. Where there is more to the transaction than just the flow of funds), and is captured as the last step of the report capturing prior to ‘saving and submitting’ to the Centre. The following information is mandatory when completing this section:
  - Item type – if this is a moveable or immovable property within or outside the Republic of South Africa
  - Description – brief description of the property involved (eg. Luxury vehicle)
  - Address – address where the property can be located
  - Estimated value - estimated value of the property at time of report being submitted

### 3.2 Baseline scenario for submitting a TFTR to the Centre – displaying fields A to H to be completed

Baseline Scenario 1 – Terrorist Finance Transaction Report (TFTR) - Single Transaction

User guide to submit a terrorist financing transaction report (TFTR) on the registration and reporting platform of the Financial Intelligence Centre

- With Effect 25 April 2016 -

#### 4. Accessing goAML

Accountable and reporting institutions can access the goAML platform by utilising the username and password captured during the registration process. Authentication will always be required before gaining access to goAML.

- Go to the Centre's website, [www.fic.gov.za](http://www.fic.gov.za)
- Access goAML page by clicking on reporting forms; OR access the link directly by using [https://goweb.fic.gov.za/goAMLWeb\\_PRD/Home](https://goweb.fic.gov.za/goAMLWeb_PRD/Home)
- Click on the **Login** link
- Enter your user name in the standard format captured during registration.
- Enter your password in the standard format of Case sensitive, Alpha Caps, Alphanumeric, numeric & Char e.g. Test12345@ and click **Log In** button to proceed.

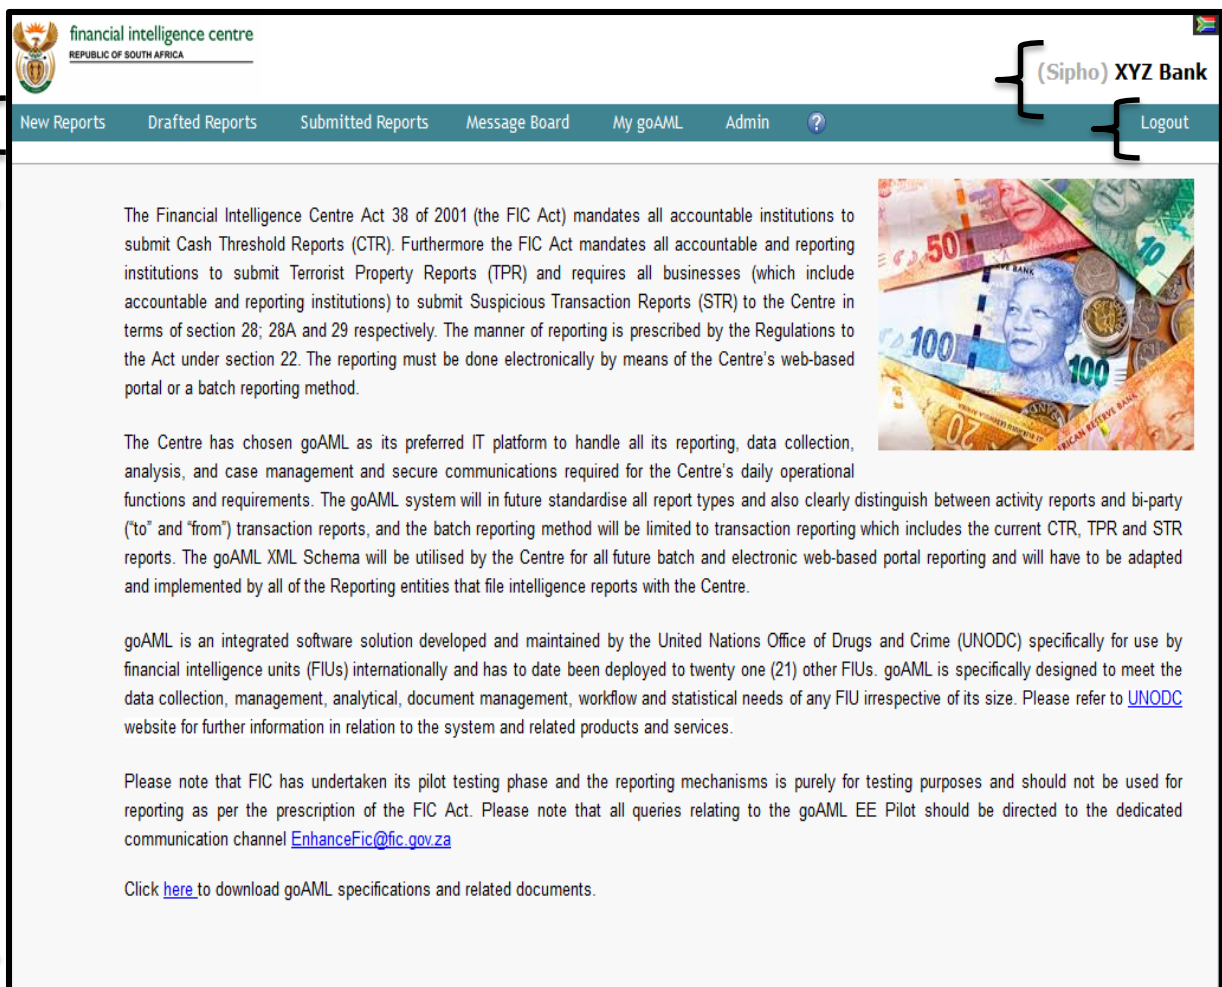

The screenshot displays the goAML login interface. At the top left is the Financial Intelligence Centre logo. A red arrow points to the 'Login' link in the top right corner. The central part of the page features a login form with two input fields: 'User Name' and 'Password'. Below these fields are two buttons: 'Log In' and 'Forgot password'.

**Caution:** Remember to keep your username and password safe.

#### 4.1. goAML platform landing page

The landing page has the following visible items

- **Logged in user details** - details which user is logged in for which institution (e.g. Sipho from XYZ Bank).
- **Menu Bar** - contains **New Reports** / Drafted Reports / Submitted Reports / Message Board / MygoAML / Admin / Help / Logout, clicking any of the link item will give a user access to the functionality required (i.e. clicking message board populates the message board).
- **Information Bar** – contains the FIC information with links to download goAML documentation.
- **Logout** – allows you to logout as a user.

The Financial Intelligence Centre Act 38 of 2001 (the FIC Act) mandates all accountable institutions to submit Cash Threshold Reports (CTR). Furthermore the FIC Act mandates all accountable and reporting institutions to submit Terrorist Property Reports (TPR) and requires all businesses (which include accountable and reporting institutions) to submit Suspicious Transaction Reports (STR) to the Centre in terms of section 28; 28A and 29 respectively. The manner of reporting is prescribed by the Regulations to the Act under section 22. The reporting must be done electronically by means of the Centre's web-based portal or a batch reporting method.

The Centre has chosen goAML as its preferred IT platform to handle all its reporting, data collection, analysis, and case management and secure communications required for the Centre's daily operational functions and requirements. The goAML system will in future standardise all report types and also clearly distinguish between activity reports and bi-party ("to" and "from") transaction reports, and the batch reporting method will be limited to transaction reporting which includes the current CTR, TPR and STR reports. The goAML XML Schema will be utilised by the Centre for all future batch and electronic web-based portal reporting and will have to be adapted and implemented by all of the Reporting entities that file intelligence reports with the Centre.

goAML is an integrated software solution developed and maintained by the United Nations Office of Drugs and Crime (UNODC) specifically for use by financial intelligence units (FIUs) internationally and has to date been deployed to twenty one (21) other FIUs. goAML is specifically designed to meet the data collection, management, analytical, document management, workflow and statistical needs of any FIU irrespective of its size. Please refer to [UNODC](#) website for further information in relation to the system and related products and services.

Please note that FIC has undertaken its pilot testing phase and the reporting mechanisms is purely for testing purposes and should not be used for reporting as per the prescription of the FIC Act. Please note that all queries relating to the goAML EE Pilot should be directed to the dedicated communication channel [EnhanceFic@fic.gov.za](mailto:EnhanceFic@fic.gov.za)

Click [here](#) to download goAML specifications and related documents.

## 5. Capturing a Terrorist Financing Transaction Report

### 5.1 Select a new Report

- The link for uploading reports is accessible by hovering the mouse pointer on the menu bar;  
**New Reports** > click **Web Reports**

- Once selected, a general reporting template will be generated.

### 5.2 Reporting template- overview

The form for creating new reports is loaded and displayed. The form fields **Entity** and **Reporting Person** are automatically completed and cannot be changed. The Reporting Person details are linked to the logged in user details.

Report Type: ID: ---

Entity	XYZ Bank	Reporting Entity Branch	
Type*		Reporting Entity Reference	
Submission Date*		FIC Ref Number	

Reason for Reporting  
n/a

Action

Submit Report Save Report Show Attachments x 0

Report Type window populates with the following fields:

## FIELD BASELINE SCENARIO B – REPORTING PERSON AND LOCATION

### 5.4. Reporting Person

- Reporting Person - Full details of the report's reporting person automatically filled in (Linked to Login ID)

Reporting Person *				
First Name	Surname/Last Name	Birth Date	RSA ID Number	Passport/Foreign ID/Permit/Refugee /Residence Number
Sipho	Mohlala	2016/01/30	8701302526985	

### 5.5 Location

Describes the actual geographical area / branch where the transaction or series of transactions occurred. The address of the logged in user is pre-populated with the address of the registered profile. The logged in user must edit or delete the address if the populated address is not the actual location of where the transaction (series of transactions) activity occurred.

Location *				
Address	City	Province/State	Postal/Zip	Country
XYZ Bank, Complex 90, Sandton Square	Johannesburg	Gauteng	7452	SOUTH AFRICA

## Editing the location

- Click the edit icon

Location *					
Address	City	Province/State	Postal/Zip	Country	
XYZ Bank, Complex 90, Sandton Square	Johannesburg	Gauteng	7452	SOUTH AFRICA	

- Address form populates > Edit the fields

The “**Use an existing Address**” button is used to populate Address information that was already captured on the web session on goAML

Address				Use an existing Address
Type*	<input type="text"/>	Address*	<input type="text"/>	
Town	<input type="text"/>	City*	<input type="text"/>	
Postal/Zip	<input type="text"/>	Country*	<input type="text" value="SOUTH AFRICA"/>	
Province/State	<input type="text"/>	Comments	<input type="text"/>	
		Save	Cancel	

- Type – It can be Business, Operational, Private, Public, Unknown
- Town – Name of town / district as part of a city
- Postal / Zip – The postal code of the city
- Province / State – Name of the province
- Address – Physical Address - details like street name, house number etc.
- City – Name of the city
- Country – Name of the country
- Comments – If any

## BASELINE SCENARIO FIELD C – INDICATORS

### 5.6. Indicators

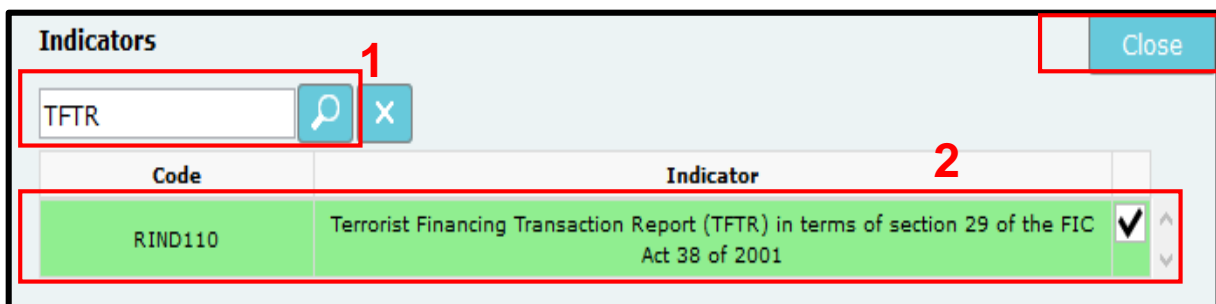

Indicators are classification for the report. More than one “**Report Indicator**” may be provided. To select the appropriate indicator:

- Click **Add** to select the appropriate indicator for the report

Indicators \* +

- Type in the **Indicator Code** > click **Search Button** > select by checking the **Indicator** > **Close**.

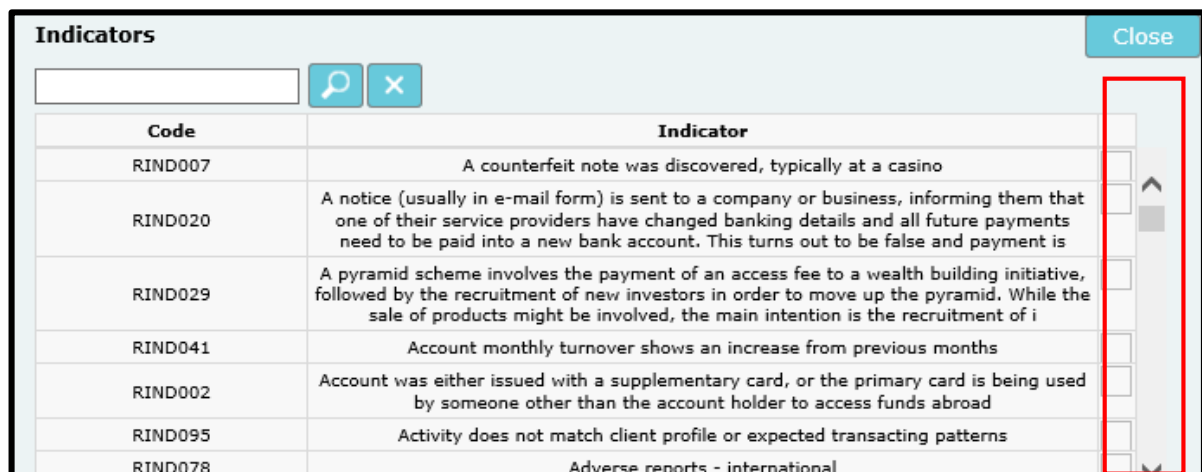

Indicators Close

TFTR

Code	Indicator	
RIND110	Terrorist Financing Transaction Report (TFTR) in terms of section 29 of the FIC Act 38 of 2001	<input checked="" type="checkbox"/>

- Or **Scroll** > select by checking the **Indicator** > **Close**.

Indicators Close

Code	Indicator	
RIND007	A counterfeit note was discovered, typically at a casino	<input type="checkbox"/>
RIND020	A notice (usually in e-mail form) is sent to a company or business, informing them that one of their service providers have changed banking details and all future payments need to be paid into a new bank account. This turns out to be false and payment is	<input type="checkbox"/>
RIND029	A pyramid scheme involves the payment of an access fee to a wealth building initiative, followed by the recruitment of new investors in order to move up the pyramid. While the sale of products might be involved, the main intention is the recruitment of i	<input type="checkbox"/>
RIND041	Account monthly turnover shows an increase from previous months	<input type="checkbox"/>
RIND002	Account was either issued with a supplementary card, or the primary card is being used by someone other than the account holder to access funds abroad	<input type="checkbox"/>
RIND095	Activity does not match client profile or expected transacting patterns	<input type="checkbox"/>
RIND078	Adverse reports - international	<input checked="" type="checkbox"/>

- The selected **Indicator** will be displayed on the form. Click **X** to delete the searched indicator

Whilst multiple report indicators may be provided, a business rule exists that indicates that a minimum of one report indicator per report must be included.

## BASELINE SCENARIO FIELD D – TRANSACTIONS

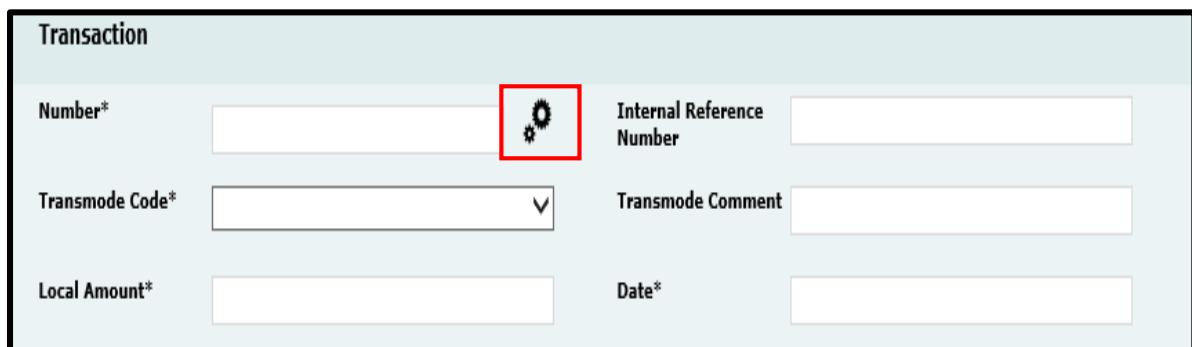

### 5.7. Transactions

Transactions details are added as follows:

- Click **Add** button to capture transaction details for the report

- The **Transaction** form populates with details of the report to be completed.

- Number\* – Unique transaction number (e.g. bank transaction will be an **Account Number**) / in an event of no transaction numbers being available, users can generate a unique reference number from the system by clicking the icon 
- Internal Reference Number – Reporting Entity internal transaction reference number
- Transmode Code – How the transaction was conducted, select from list (e.g. Cash)
- Transmode Comment – Description if the transmode code is Unknown or Other
- Local Amount – The value of the transaction in local currency (e.g. R35000)
- Date – Date of transaction (e.g. ccyy/mm/dd)

**Please Note:** For non-banking institutions there must be a unique transaction number (**Number\***) that will enable the institution to identify the relevant transaction and the client number/profile may be used in this instance

---

Late Deposit?	<input type="radio"/> Yes	<input checked="" type="radio"/> No	
Teller	<input type="text"/>	Authorised	<input type="text"/>
Location*	<input type="text"/>		
Description	<input type="text"/>		

- Late Deposit - This field is applicable in cases where the customer drops cash in a box at a bank after the bank's working hours. In all such cases, the "Value Date" will be different from transaction date as the bank will process this transaction the next day
- Teller – The teller who conducted the transaction. This is only applicable where a transaction is conducted in-branch
- Authorised – Person who authorised the transaction
- Location – Branch / Location where the transaction took place
- Description – List additional information in relation to the late deposit if available

## BASELINE SCENARIO FIELD E – FROM TYPE / TO TYPE

### 5.8 From Type / To Type

Transactional reports on goAML are structured as bi-party transactions with a **From** and **To** part to every transaction. A transaction report will always have a From (Payee) and To (Receiver) side which will need to be completed by the reporter.-

One of the part of the **From Type** and **To Type** have to be “my client” or “not my client”. A client whether “my client” or “not my client” will always be, either an account, entity and/or person - a variation of the three and may be one or multiple. The mandatory information fields that need to be completed will differ as per the FIC requirements (e.g. if it’s “my client”, first name, surname, ID and date of birth are mandatory whilst the “not my client” only name or surname will be mandatory).

## BASELINE SCENARIO FIELD F – MY CLIENT / NOT MY CLIENT AND CONDUCTOR

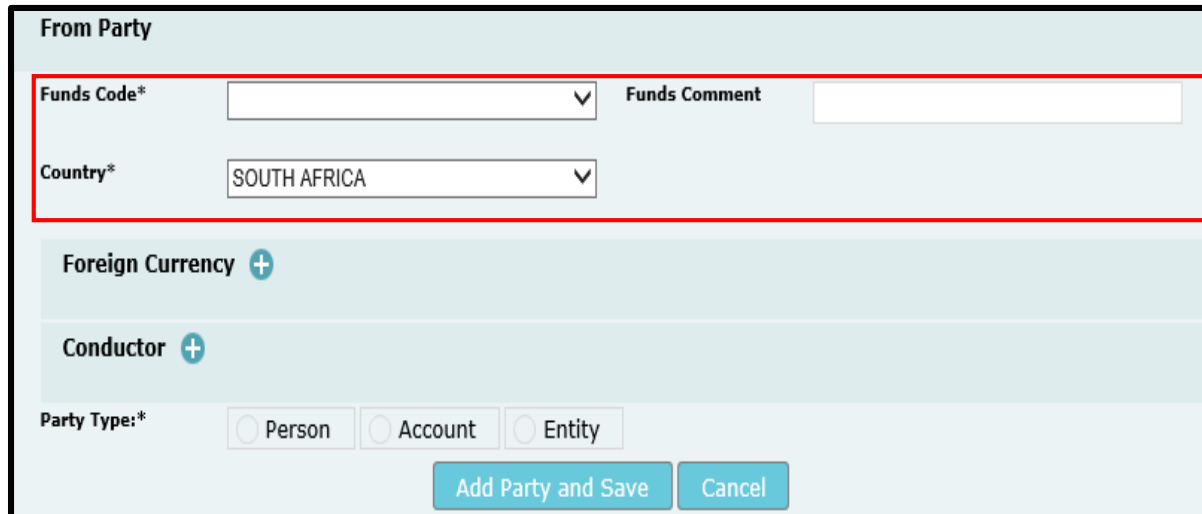

### 5.9 My Client / Not my client

The difference would be the part of the transaction where it is “**My Client**” versus just a “**Not My Client**” as it will influence how many of the fields will be mandatory.

- Click the > **My Client** radio button > The **From My Client** button displays > click the **Add** button

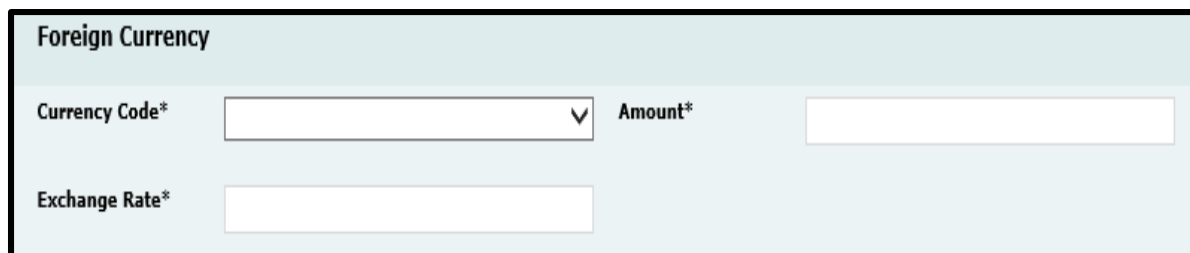

- The **From Party** form displays, complete the details

- Funds Code – Type of funds used in initiating transaction (e.g. Cash )
- Country – Country where transaction was initiated
- Funds Comment – Description, if funds code is Unknown

## 5.10 Foreign Currency

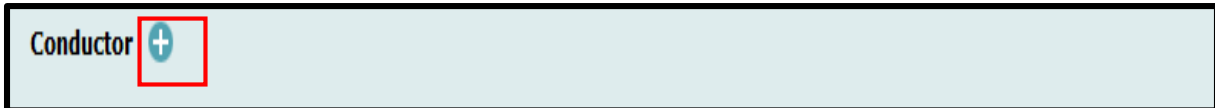

Clicking the **Foreign Currency**  add button generates a form with mandatory **Currency Code**, **Amount** and **Exchange Rate** fields

- Currency Code – Describes the currency for the transaction
- Amount – Transaction amount in foreign currency
- Exchange Rate – Exchange rate used for transaction (i.e. numeric value)

## 5.11 Conductor

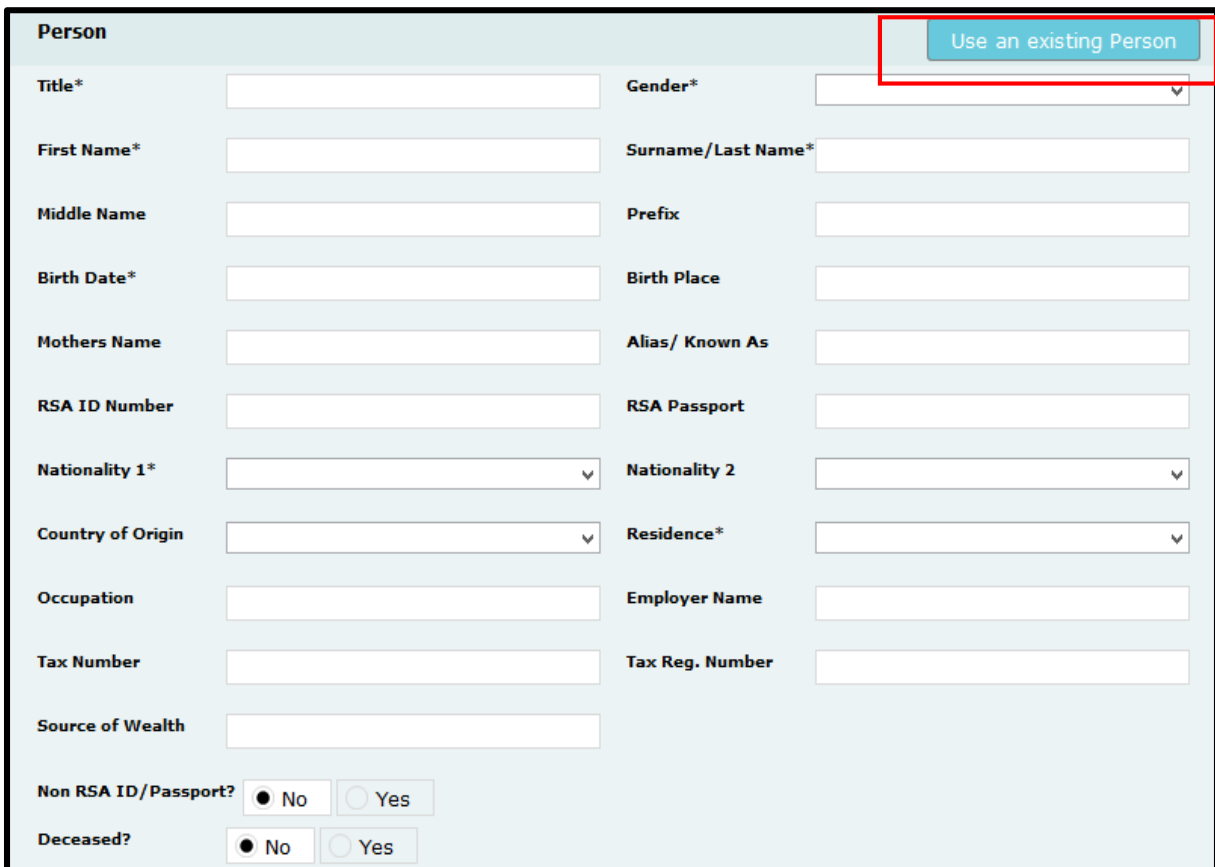

A Conductor is a person carrying out the transaction and is an optional field. Clicking the **Conductor** add button generates a **Person** form

A light blue rectangular button with the word "Conductor" in black text and a blue circular icon with a white plus sign to its right. The icon is highlighted with a red square border.

## 5.12 Person Form

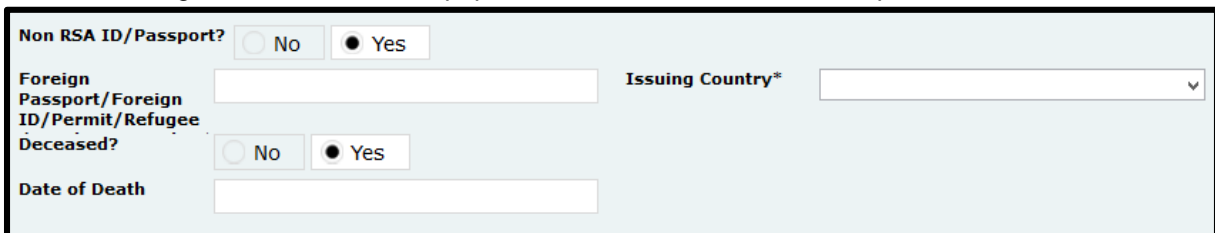

The below screen will generate once the conductor has been selected. “**Use an existing Person**” button is used to populate Person information that was already captured on the web session on goAML.

A form titled "Person" with a light blue header. In the top right corner of the header is a button labeled "Use an existing Person" which is highlighted with a red rectangle. The form contains the following fields:

- Title\* (text input)
- Gender\* (dropdown menu)
- First Name\* (text input)
- Surname/Last Name\* (text input)
- Middle Name (text input)
- Prefix (text input)
- Birth Date\* (text input)
- Birth Place (text input)
- Mothers Name (text input)
- Alias/ Known As (text input)
- RSA ID Number (text input)
- RSA Passport (text input)
- Nationality 1\* (dropdown menu)
- Nationality 2 (dropdown menu)
- Country of Origin (dropdown menu)
- Residence\* (dropdown menu)
- Occupation (text input)
- Employer Name (text input)
- Tax Number (text input)
- Tax Reg. Number (text input)
- Source of Wealth (text input)
- Non RSA ID/Passport? (radio buttons: No, Yes)
- Deceased? (radio buttons: No, Yes)

- Clicking the Yes radio button populates additional fields to be completed

A form section with a light blue background, containing the following fields:

- Non RSA ID/Passport? (radio buttons: No, Yes)
- Foreign Passport/Foreign ID/Permit/Refugee (text input)
- Issuing Country\* (dropdown menu)
- Deceased? (radio buttons: No, Yes)
- Date of Death (text input)

User guide to submit a terrorist financing transaction report (TFTR) on the registration and reporting platform of the  
Financial Intelligence Centre  
- With Effect 25 April 2016 -

- Title – e.g. Ms / Dr / Mrs
- First Name – First name of the person
- Middle Name – Middle name of the person
- Birth Date – Date of birth/ can be typed in / from calendar in ccyy/mm/dd format
- Mothers Name – Maiden Name
- RSA ID No – 13 digit South African ID Number  
This is a mandatory field in the event that it is my client and said client has a SA ID Number (e.g. 7404080408069)
- Nationality 1 – The status of belonging to a particular nation, whether by birth or naturalisation
- Country of Origin – The country in which a person is deemed to have originated
- Occupation – Job title of the person
- Gender – Male / Female
- Surname / Last Name – Surname of the reported person
- Prefix – Any name prefix (e.g. titles of nobility - Duke)
- Birth Place – Place of birth
- Alias / Known As – Also known as name or other aliases
- RSA Passport – South African passport number
- Nationality 2 – The status of belonging to a particular nation, whether by birth or naturalisation
- Residence – Select the current residence country of the person
- Employer Name – Record of Employer details

## 5.18 Save and Cancel Button

- Save – The save button adds information to the person's form
- Cancel – To cancel or discard the current screen information

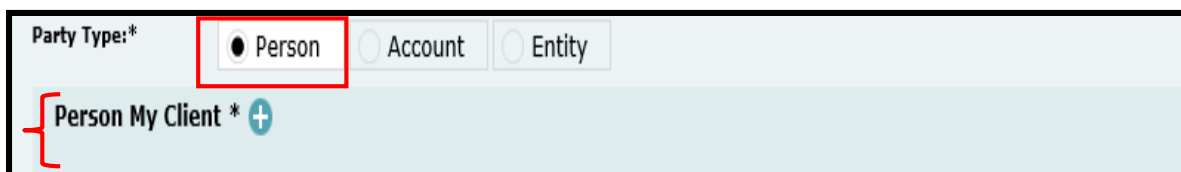

## BASELINE SCENARIO FIELD G – PERSON / ENTITY / ACCOUNT

### 5.19 Party Type

The Party Type refers to the source and destination party in relation to the TFTR being reported to the Centre. This means the party to The Party Type can be either a **Person**, **Account** or **Entity**, and/or a combination of these. This means the source can be either a **Person**, **Account** or **Entity**. This also means that the destination can be either a **Person**, **Account** or **Entity**.

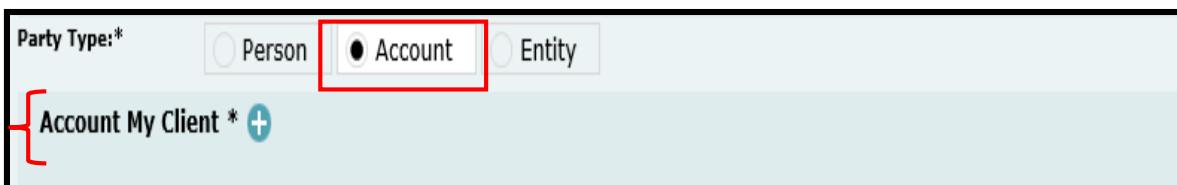

### 5.20 Person My Client

Where the client of the accountable or reporting institution is a person. Clicking the **Person** radio button will generate **Person My Client** field > click the **Add** button to generate the form, refer to **paragraph 5.12 Person form**.

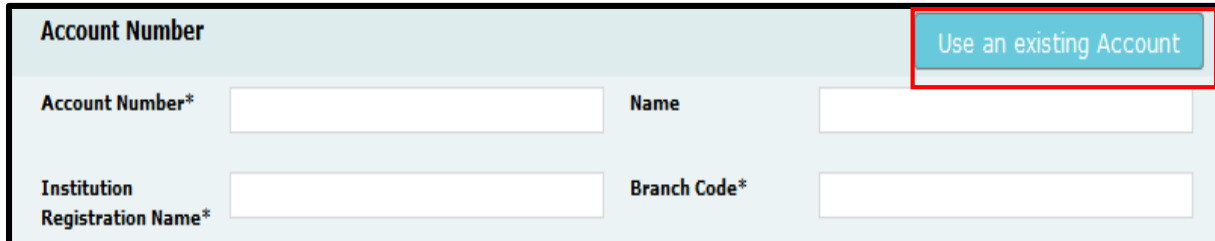

### 5.21 Account My Client

Clicking the **Account** radio button generates **Account My Client** field > click the **Add** button to generate the form

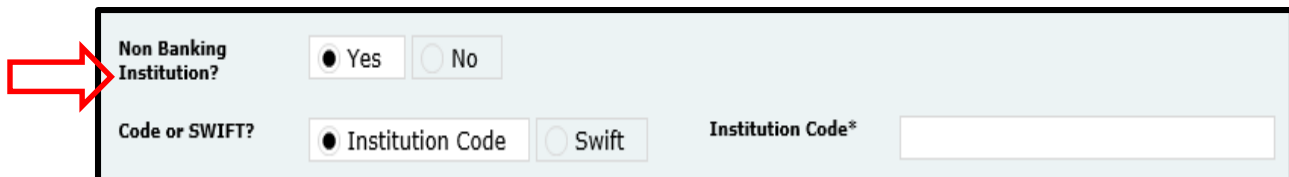

- Whenever the involved **Account** / **Person** / **Entity** is the client of the reporting entity, more details may be demanded on the client, and the reporting entity must have the information as part of the adherence to the client identification and verification requirements of the FIC Act.
- In the instance of an account of a minor both the details of the minor and guardian authorised to transact on his/her behalf should be captured

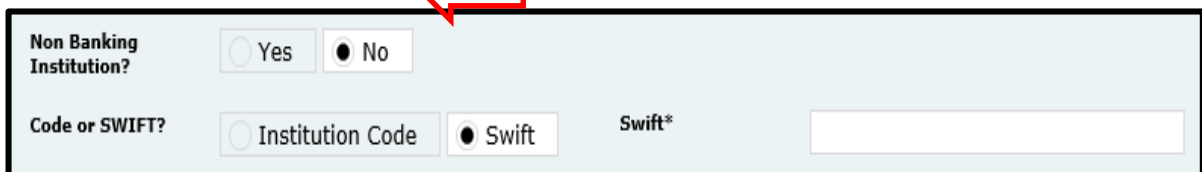

The “**Use an existing Account**” button is used to populate **Account** information that was already captured on the web session on goAML.

- Account Number - Account number (for **Non-Banking** institution the account number can refer to the client number/profile number assigned by the institution)
- Name - The type of account that is being referred to- i.e. Trust account, savings account or client account etc.
- Institution Registration Name - Name of the institution where account is held
- Branch Code – Branch where the account is held

- Non Banking Institution? – Yes (if institution is **not** a bank)
- Institution Code - Institution code is the code issued to Reporting Entity by FIC
- Code or SWIFT? – Choose Institution Code

- Non Banking Institution? –No (If institution is a bank)
- SWIFT – SWIFT code according to ISO 9362 (e.g. XYZ001)
- Code or SWIFT? – Choose SWIFT Code

Account Type*	<input type="text"/>	Status Code*	<input type="text"/>
Currency Code*	<input type="text"/>	Beneficiary	<input type="text"/>
IBAN	<input type="text"/>	Client Number	<input type="text"/>
Opened*	<input type="text"/>	Closed	<input type="text"/>
Balance*	<input type="text"/>	Date of Balance*	<input type="text"/>

- Account Type - Type of account (e.g. Trust or Client)
- Currency Code - Currency the account is kept in
- IBAN (International Bank Account Number) - is a number attached to all accounts, the code identifies the country the account belongs to, the account holder's bank and the account number.
- Opened – Date account opened in ccyy/mm/dd format
- Balance - The account balance at the time of reporting
